

RON MALTECO. THE STORY.

The Story of a Divine Nectar.

Ron Malteco, a unique distillate produced in Panama, is the skillful outcome of Maestros Roneros' ancient art, who have handed down the formula of a superb blend. Fresh cane juice and high-quality yeast, distilled by column still and let ageing on the Panamanian hillsides – all this combined with the choice of the best bourbon barrels ensures a divine nectar.

The legend tells that this was possible thanks to the blessing of the Quetzal bird with its more-than-a-meter-long feathers. Venerated by Pre-Columbian people, it was the inspiration for the myth of the feathered snake in the story of Quetzalcoatl god, who came from the sea to teach people all the skills and knowledge to help them progress in the course of history.

Ron Malteco Lucky Charm.

Ron Malteco logo is the stylized image of the resplendent Quetzal bird (or as we friendly call it "Quizzy). "If caged, it would die"... for this reason it has become the symbol of freedom and wealth, due to the Quetzals dying in captivity and the value of their feathers.

What other symbol could suit better our Ron Malteco? When travelling in Central America, Marco Savio, the brand owner, was impressed by the Quetzal bird and all the legends around it, so he chose it as the lucky charm for this rum that reflects both the ancient culture and the modernity of Panama's heart.
